

International Workshop on Future Linear Colliders, LCWS2018

Tuesday, 23 October 2018

Warm RF 2 - San Saba (14:00 - 16:00)

time	[id] title	presenter
14:00	[205] Design study of the high efficiency L-band Klystrons at CERN	CAI, Jinchi
14:20	[206] Status of the X-band, Modular Array, Multi-Beam Klystron Development Project	FRANZI, Matt
14:40	[207] Superconducting klystron focusing solenoid for high-efficiency	YAMAMOTO, Akira
15:00	[208] Advanced normal conducting radio frequency linac concept for a high energy e+e - linear collider	NANNI, Emilio
15:20	[209] High Efficiency X-band Klystron Design Study	NEILSON, Jeffrey
15:40	[237] Cryogenic Photoinjector Source for Linear Colliders	ROSENZWEIG, James
