

# Agenda

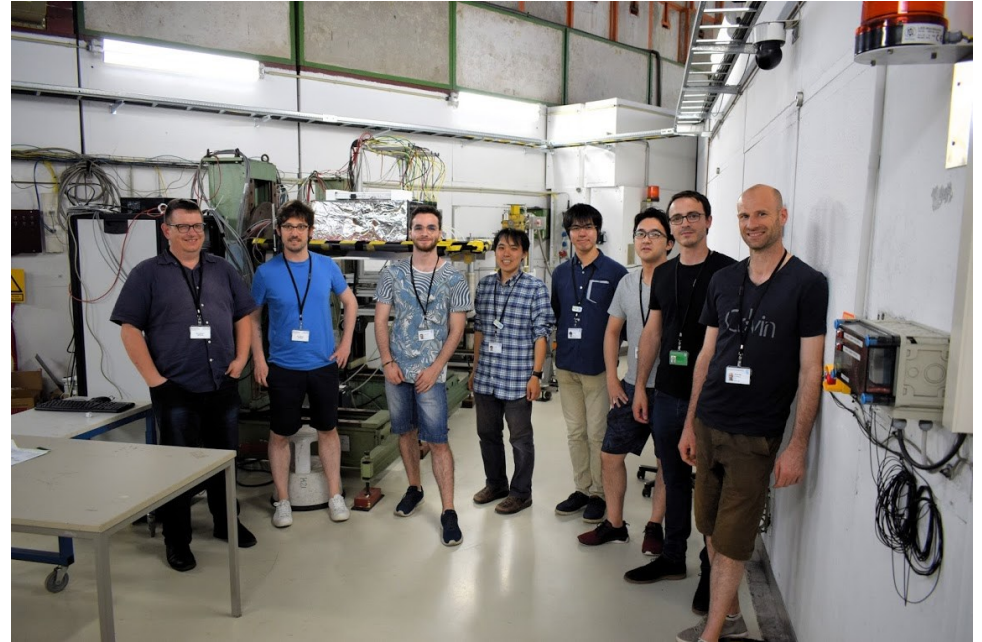

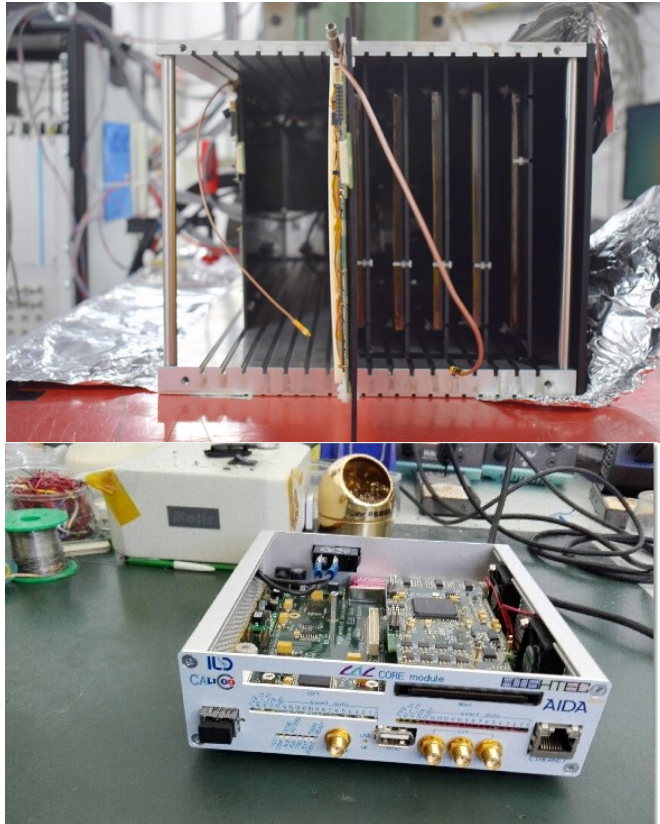

- News Ties Behnke
- Status of the IDR Ties Behnke
- EW physics at ILD with radiative returns from the Z Junping Tian
- EW physics at ILD using Z running Roman Poeschl

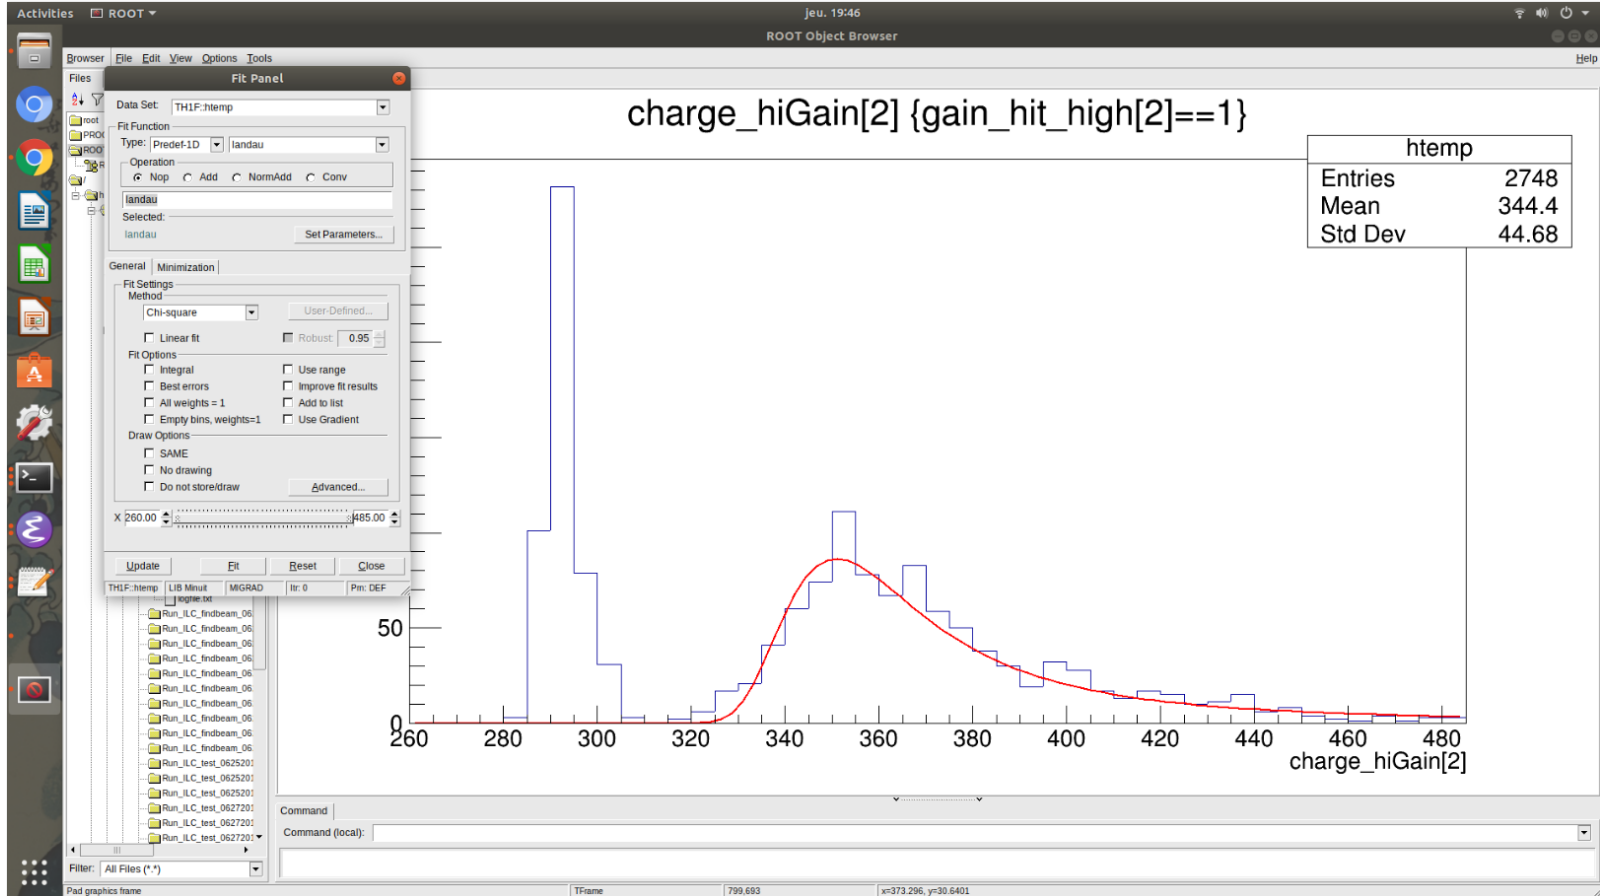

# ECAL testbeam

ECAL testbeam campaign at DESY

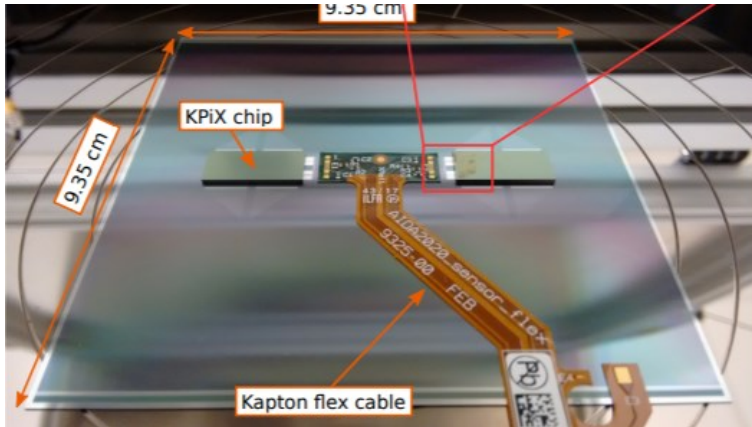

# ECAL testbeam

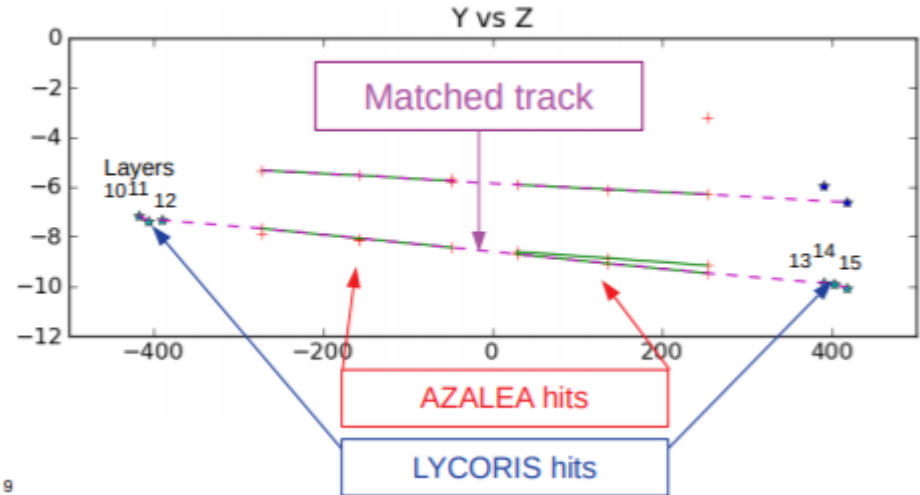

# Si strip tracker (LCTPC)

Recent test-beam with Silicon Strip Tracker (external tracker for TPC)

First results from tracking:

# ILD authorship

Drive to determine the list of ILD authors

- 45 institutes have answered so far
- 24 are still missing

Will create authorlist from this soon, to be used for the ILD paper submitted to the ESU process.

# ILD at LCWS2019

LCWS 2019 will take place in Sendai, Japan

Format will be “traditional”  
LCWS conference

Most likely, there will be a session for ILD during the conference, though the exact time is still not determined

# IDR Status/ Schedule

Significant effort has gone into the document over the last few weeks

Plan:

Distribute a first (incomplete) version to ILD at the end of this week

Collect fundamental comments and additions over the summer

Editing days August 27/ 28 at DESY

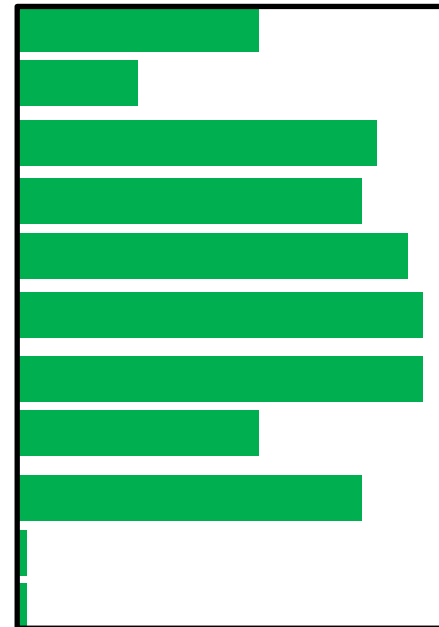

Circulation of the first complete document to ILD in September

# IDR Structure

1. Introduction
2. Science with ILD
3. The ILC Environment
4. The ILD Detector Concept
5. Detector Layout and Technologies
6. ILD Global Integration
7. Physics and Detector Modelling
8. Detector and Physics Performance
9. Costing
10. Future of ILD
11. Summary

Degree of readiness

# Next ILD meetings

Next ILD phone meeting: August 6, 2019

ILD physics and analysis meetings

- Tomorrow: rehearsal for EPS
- July 17
- ...
