

Spokespersons' Farewell

Roman Pöschl

CALICE Collaboration Meeting McGill University Montreal/CA – March 2020

On behalf of the collaboration I would like to thank McGill for hosting us for this meeting

The local organisation was ensured by

Francois Corriveau
Avleen Mahon
Christina Nelson

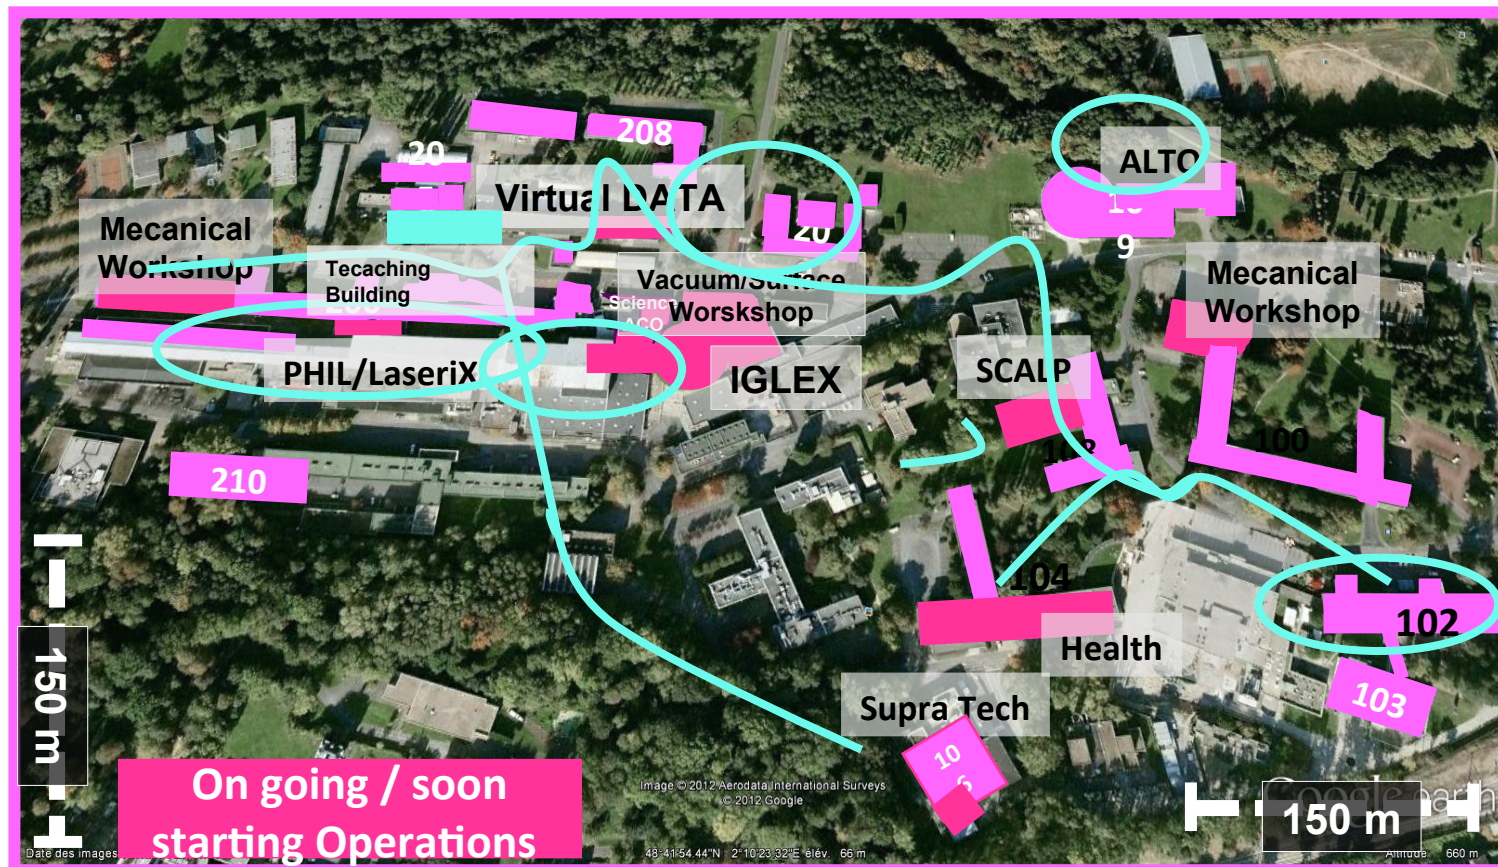

Thank you very much!!!

I would like to thank all the speakers and participants
Would like to see next time more “young’ speakers

- **This meeting was very much turned towards the future of CALICE**
 - Next generation ASIC development appear on the horizon
 - Combined beam tests appear at the Horizon
 - May have an interest to review and scrutinise our research program for the next years
- **CALICE has to make the step into the “sub 100ps” domain**
 - Have to make up our minds what we want on which timescale
 - The first step is clearly the deep understanding of existing data
 - Would like to see a dedicated meeting on that between now and the collaboration meeting
- **Inspiration for new elements to highly granular calorimeters**
 - Dual readout goes granular, 3D SiPMs
 - Must always find ways to integration new efforts
 - MAPS is a nice example how this could work
 - Several MAPS members grew out of CALICE and feed now back into CALICE
- **Strategies, HEP Projects and funding**
 - Update of European Strategy
 - CALICE has to be well placed in ILC pre²paratory phase
 - AIDAInnova submission imminent
 - BTW.: My remarks on this are very much biased towards Europe
 - **Please make me aware of comparable projects/efforts in other regions**

Since January 1st 2020

- IJCLab comprises 800 people from several disciplines
- including lots of technical competences
- Will be come biggest laboratory in IN2P3 and will be among the biggest labs in France and Europe
- Director is Achille Stocchi

- On behalf of the IJCLab direction the ILC Group of IJCLab invites CALICE for its Autumn meeting 2020
 - CALICE has never been at LAL (and will never be)

- Auditorium Pierre Lehmann with ~200 places and excellent infrastructure
 - plus “Salle bleue” for panel meetings
- **Date: 28/9/20 – 30/9/20**
- Conference organisation will be ensured by event management team of IJCLab
 - First meeting with event management team on 17/3/20

We look forward to welcoming CALICE in the Orsay Valley
