- master defense (1/24)

- master thesis

- I wanted to start tau-study@ILC250

  there's no production samples for 250 GeV

- Miyamoto-san taught me how to use whizard2

  reproduce this plot using ee->tautau@500GeV

  and try to produce 250 GeV event samples

- Code refactoring
  because my current source code is dirty…

Mini-workshop for the LC generator working group
