

Szymon, presented a few slides about TB2020 experimental setup and FLAME data. He explained the test-beam setup for standalone FLAME boards, FLAME boards and APVs and LUXE setup. Regarding FLAME data, he described the data file and the Tree reader. We discussed the possibility to synchronize all data files from FLAME – APV - TELESCOPE.

Thanks to Sasha and Jakub the FLAME data files are available on this link:
http://asic.fis.agh.edu.pl/tb2020_flame/, as long as it will be needed.

This link was add on the meeting
webpage:<https://agenda.linearcollider.org/event/8494/>

Also, very soon the APVs files will be upload on this link:

http://asic.fis.agh.edu.pl/tb2020_srs/

and the TELESCOPE data files on this link:

http://asic.fis.agh.edu.pl/tb2020_alpide/

Gleb and Pavel will be help by Bogdan, Szymon and Sasha to do some preliminary analysis on FLAME data.

The next meeting will be in 2 weeks, on 15 April 2020 at 4 pm CERN time zone.
