The next steps for the ILC

- Current LCC structure will stop summer 2020
- New structure is currently being discussed
    - Tatsuya Nakada coordinates the proposal for a new structure
    - It is anticipated that the new structure will start operation in summer
    - Three sections: Project, Accelerator, Detector and Science
- This will be a pre-step towards the establishment of the pre-lab
- KEK will be the host for the new structure and for the pre-lab

Meeting Schedule

- US LC meeting has been postponed, no new date yet
  - (if possible still this year)

- European hosted LCWS not yet decided, depends on international developments
