

# Americas Workshop on Linear Colliders 2020

**Monday, October 19, 2020 - Thursday, October 22, 2020**

**Zoom**

## **Scientific Program**

## Plenary Sessions

Plenary sessions will be held in the time zone:

1400 US Pacific / 1700 US East Coast / 2300 Central Europe / 600 (next day) Japan

The general topics of these sessions will be:

Mon., Oct. 19: Introduction, Physics Motivation of ILC, International Perspectives

Tue., Oct. 20: ILC Accelerator

Wed., Oct. 21: ILC Detector Technology; Early Career Panel

Thu., Oct. 22: Summary; ILC Timeline; Concluding Panel

ASIAN PARTICIPANTS PLEASE NOTE: In Asian time zones, the plenary sessions will be held on the day following that posted above, that is, on Oct. 20, 21, 22, 23, respectively.

EUROPEAN PARTICIPANTS PLEASE NOTE: There is a known bug in indico that might make the timing of these talks ambiguous. The above sessions will begin on October 19, 20, 21, and 22 at 11:00pm Central European Time, respectively. Please view the schedule of talks in indico "detailed view" in the Pacific time zone and then correct to this starting in your time zone.

## Parallel Sessions

Parallel sessions will be held in the time zone:

700 US Pacific / 1000 US East Coast / 1600 Central Europe / 2300 Japan

There will be multiple tracks. The general areas covered will be:

Tue., Oct. 20: Accelerator Design / Theory-Dark Sector

Wed., Oct. 21: Accelerator Design / Physics Simulation for New Users

Thu., Oct. 22: Accelerator Design / Theory-Precision Calculation

ASIAN PARTICIPANTS PLEASE NOTE: There is a known bug in indico that might make the timing of these talks ambiguous. The above sessions will begin on October 20, 21, and 22 in Japan/Korea and China, at 11:00pm and 10:00pm, respectively. Please view the schedule of talks in indico "detailed view" in the Pacific time zone and then correct to these starting times.
