

# General news

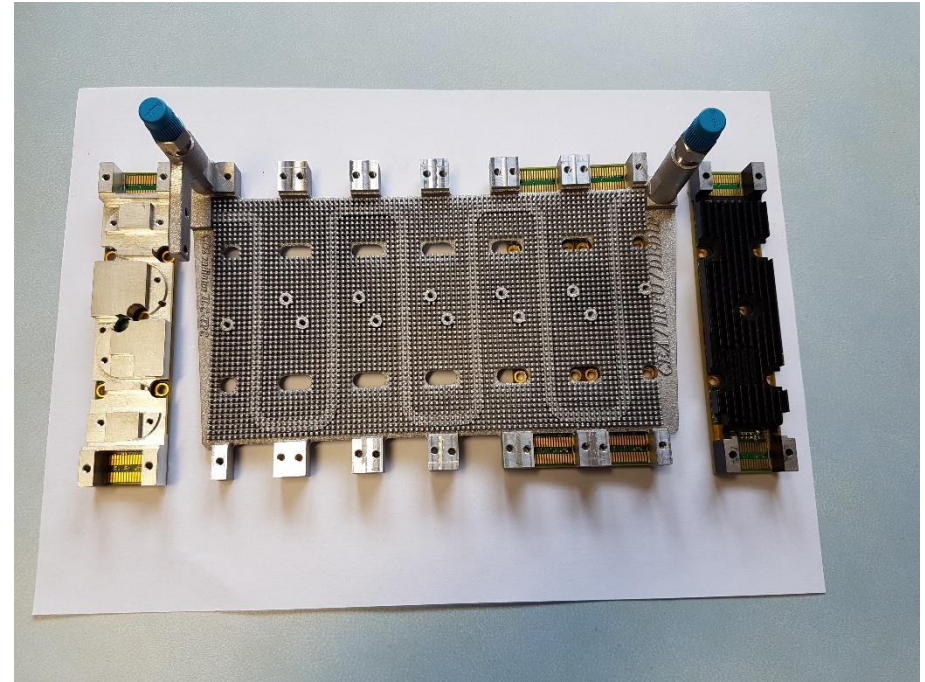

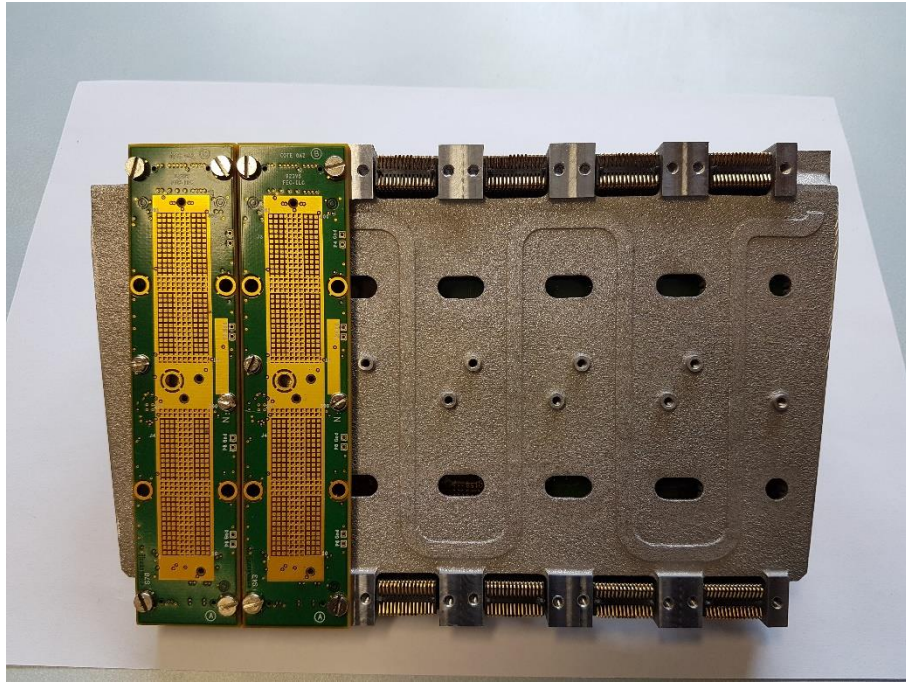

- ILC Europe (Steiner Stapnes). There were 2 meetings (September 17 and 23) to kick-off EU-ILC activities and detector roadmap. Slides on <https://agenda.linearcollider.org/event/8652/>
  - Next information meetings : Wednesday 4/11, 9/12, 13/1
  - Register to the ILC-Europe list : simple email to [sympa@desy.de](mailto:sympa@desy.de), with the subject line SUBSCRIBE ilceurope-general [firstname lastname]
  - ILC Detector timeline (initial IDT thoughts for discussion)
    - EoI mid-end 2022, LoI end 2023 (for reduced set?), Technical Proposal (or overall TDR) end 2025 for final set of experiments
    - Requested and evaluated by “ILCC” – initially set up by the Prelab management, final approval however by ILC-laboratory
    - Need “convergence towards approval” during Prelab, such that sufficient resources can be engaged at acceptable risk by the stakeholders
- European Strategy implementation on detector R&D : ECFA working groups are under construction (see next slide)
- TPC workshop in RD51 Collaboration Meeting (October 5-9, see <https://indico.cern.ch/event/889369/> and please register to obtain the password and the updates, and the slack channels.

### Organization to structure the consultation with the community

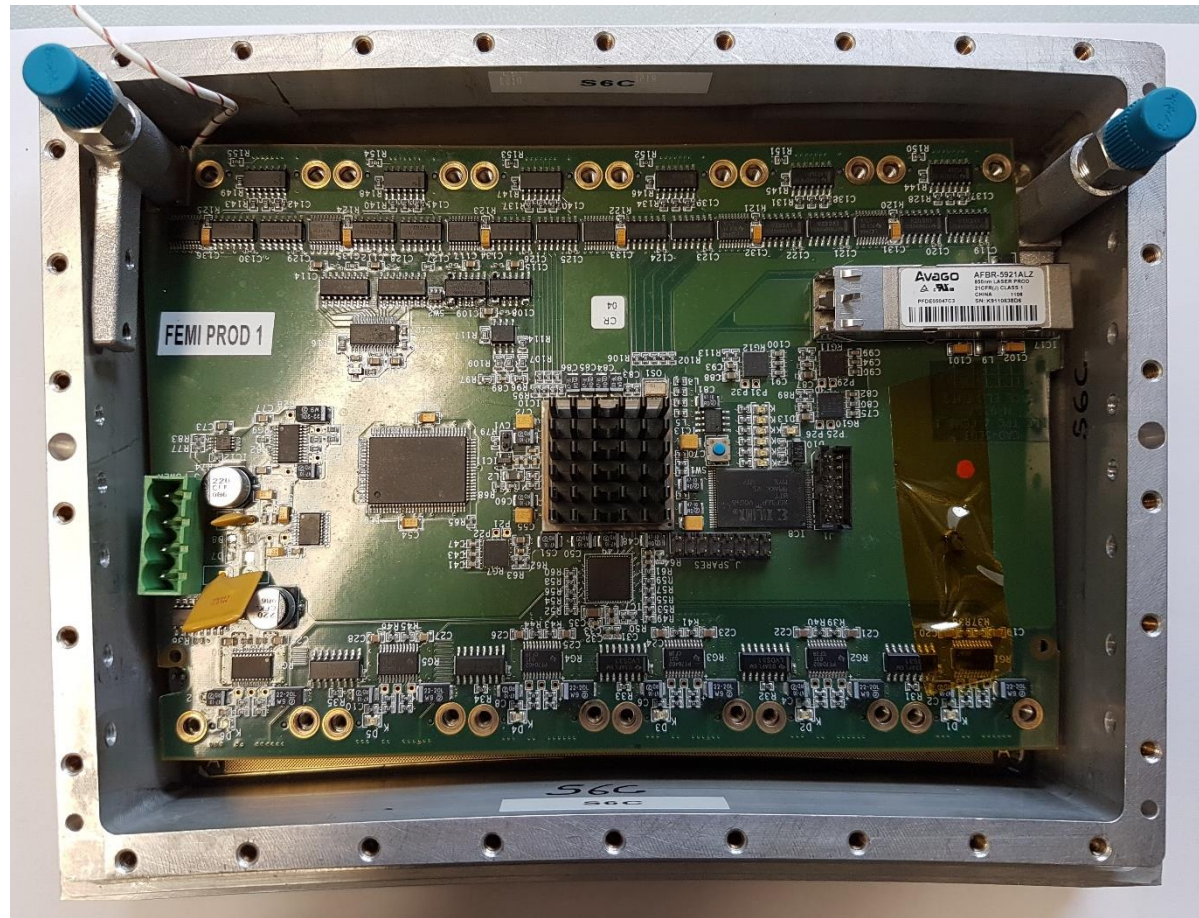

# Saclay news

- Aluminum 3D-printed cooling plate ready and tested for mechanics.
- Pressure tests at 50 and 100 bars in the coming weeks
- Thermal tests with 2PCO<sub>2</sub> with TRACI in DESY tentatively Q2 2021.
