

# **CALICE Collaboration Meeting at Orsay and Palaiseau**

**Wednesday, October 12, 2022 - Friday, October 14, 2022**

## **Scientific Program**

At the CALICE Autumn Meeting we will present recent results on high-granular calorimeters, obtained in beam tests, detector R&D and data analysis. Further an outlook on the upcoming beam tests campaigns will be given. The role of CALICE in the changing landscape of international detector R&D will be discussed.
