revisit ILD regulations

particularly those regarding the election process

mid-term

plan transition to a more formal structure

- 2021: The IDT calls for EoIs, to be presented in a dedicated workshop after Pre-lab start
- 2022: Assumed start of the Pre-lab. **Eoi presentations** in dedicated workshop. The process of moving from Eoi presentations towards Lol documents is community driven. Initial **dedicated ILC R&D funds** will be needed.
- 2023: **Lol submissions** and presentations. The ILCXAC will initiate its evaluation of the Lols. R&D continues.
- 2024: ILCXAC recommendations of initial ILC experiments to **proceed towards TPs**. R&D towards the TPs.
- 2025: TP submissions and presentations of these experiments. Continuation of R&D and recommendations by the ILCXAC based on the submitted TPs.
- 2026-27: **Approval of the experiments**, based on the TP and ILCXAC recommendations, by a committee set up by the ILC Laboratory. Recommendations to proceed towards Technical Design (TDR) Reports. Funding requests for construction are being prepared and submitted according to the relevant procedures for the participating institutes.
- 2027: The ILC laboratory allows **construction to start** and construction funding spending for experiments or experimental subsystems based on TDRs approvals
