

# ILC Workshop on Potential Experiments (ILCX2021)

## Wednesday, 27 October 2021

### H-1: BSM particle production - Room #4 (13:00 - 15:00)

time	[id] title	presenter
13:00	[85] Testing the neutrino mass generation mechanism at the electron positron colliders	DAS, Arindam
13:20	[83] Exploring Right Handed Neutrinos at ILC	NAKAJIMA, Jurina
13:40	[106] A model for tiny neutrino masses, dark matter, and baryon asymmetry and its phenomenology at the ILC	ENOMOTO, Kazuki AOKI, Mayumi KANEMURA, Shinya
14:00	[53] Searching for Lepton Portal Dark Matter at Linear Colliders	Dr JUEID, Adil
14:20	[11] The search for leptophilic WIMP at ILC	KATAYOSE, Taisuke
