

ILC Workshop on Potential Experiments (ILCX2021)

Thursday, 28 October 2021

H&O: BSM particle production & Fixed target / Dark sectors / Applications outside particle physics - Room #6 (15:30 - 17:30)

time	[id] title	presenter
15:30	[2] Physics with far detectors at future lepton colliders	WANG, Zeren Simon
16:00	[326] Physics reach of a long-lived particle detector at Belle II	WESTHOFF, Susanne
16:30	[93] Search for new light particles using MeV photon beam at the ILC	FUKUDA, Hajime
