

ILC Workshop on Potential Experiments (ILCX2021)

Wednesday, 27 October 2021

F&H-2: Higgs properties & BSM particle production - Room #2 (19:00 - 21:00)

time	[id] title	presenter
19:00	[44] The THDMa and possible e+e- signatures	ROBENS, Tania Natalie
19:20	[39] Impact of overlay events on the charged IDM scalar reconstruction at CLIC	KLAMKA, Jan
19:40	[56] Sizable triple Higgs couplings in the 2HDM: Prospects for future e^+e^- colliders	ARCO, Francisco
20:00	[123] Off diagonal charged scalar couplings with the Z boson	FLORENTINO, Ricardo
20:20	[57] A 96 GeV Higgs Boson in the 2HDMS and the N2HDM	LI, Cheng
