

## **FCAL software and analysis meeting, 30 June 2021,**

### **Meeting Minutes**

No talks for today. We discussed TB2020 MC Simulation, Alina did some changes in his codes and she used 50k events for good statistics. Roma will compare the new MC root file with the experimental data.

Bohdan didn't have time to continue his MC simulations for different physics lists but he hopes in 2 weeks to do it.

Szymon can present the talk at the EPS-HEP conference. The slides will be circulated for comments and on the 21st of July Szymon will have a rehearsal session for this talk.

The next meeting will be in 2 weeks, on 14 July 2021 at 4 pm CERN time zone.
