

A_LR measurement using e⁺e⁻ to gamma Z

MIZUNO, Takahiro

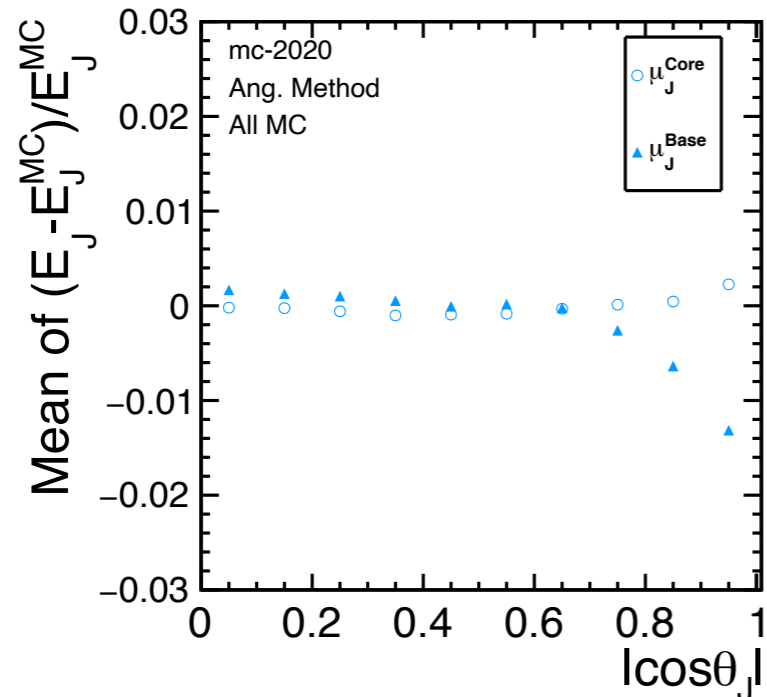

The Graduate University for Advanced Studies, SOKENDAI

PhD defense was successfully finished.

Q: Photon energy calibration: How to treat ϕ singularity?

Q: Jet energy scale calibration: Why calibration is based on uds-jets?

Q:

What makes bias on the core-gaussian in the forward region?

Thank you for all advices and comments on my research.

I will continue the research:

A. Modify the thesis

B. Prepare the paper
