Lepton Photon 2021

lp-2021@cern.ch

Proceedings

Updated 16 March.

The proceedings for Lepton Photon 2021 will be published on [Zenodo](#). By default, this will include the slides or poster files. Each submission will have its unique DOI. This leaves three options:

- If you're happy with your slides or poster serving as your proceedings you won't have to do anything.
- You are welcome to submit written proceedings (we will follow up with submission instructions) by the extended **deadline of 15 April 2022**. We suggest the following page limits as rough guides: Plenary: 8 pages, Parallel: 5 pages, Poster: 3 pages.
- If you would not like either contribution to appear as part of our proceedings, please inform us by email to lp-2021@cern.ch of your intention to withdraw from the proceedings.

Written proceedings

If you would like to submit written proceedings, please proceed as follows.

- Log in to indico and go to "My Contributions" and click on your contribution for which you would like to submit a paper.
- Click on "Submit paper" and upload your file in PDF format.

There is no template for proceedings. Please include the following statement on your title page:

Presented at the 30th International Symposium on Lepton Photon Interactions at High Energies, hosted by the University of Manchester, 10-14 January 2022.

We will try to process all contributions as soon as possible after the submission deadline and send a notification once the Zenodo compilation is complete and DOIs are available.
