

# IDT-WG2 report

*Shin MICHIZONO (KEK/IDT-WG2)*

*(May 31, 2022)*

IDT-EB chair has started to circulate the Time-critical WPs to some lab directors. I requested that each group would make some slides explaining the work packages. These were discussed at last week's group meeting. Today, each group leader will explain these slides as group reports.

These slides will be used when the Institute requests an explanation.

Conference information:

May 23-27: IAEA International Conference on Accelerators for Research and Sustainable Development
