

# Status

PFO efficiency was not good

we found

- neutral tau daughter was not included
- cone size was too narrow  
0.1 rad some particles are outside of cone

# Status

PFO: neutral tau daughter was not included

$m_{\pi^0}$  assignment for neutral tau daughter

only for PFO

especially for  $\rho$  decay

$m_{\pi^0}$  assignment for neutral tau daughter

only for MC-linked PFO
