

# 2nd general meeting of ILC-Japan Physics Working Group

## Wednesday 22 February 2023

### Ongoing analysis studies for Higgs factories - Bldg. 4 Room 345 (10:00 - 12:55)

time	[id] title	presenter
10:00	[9] Overview of beam- and machine-induced background studies for $C^3$	NTOUNIS, Dimitris
10:25	[11] Measuring the tau polarisation at ILC	Mr YUMINO, Keita
10:50	[10] Probing heavy Majorana neutrino pair production at ILC250 in a $U(1)_{\text{B-L}}$ extension of the Standard Model	NAKAJIMA, Jurina
11:15	[12] Clustering of Calorimeter Hits with GravNet	TSUMURA, Shusaku
11:40	[13] Flavor Tagging with GNN	Mr ONOE, Tomoki
12:05	[14] $Z'$ search in $2f$ final states with ILC 500 GeV	NAGAE, Koushi
12:30	[15] Imprint of quark flavor violating SUSY in $h(125)$ decays at future lepton colliders	HIDAKA, Keisho
